Experience

Quora

Nov 2021 - Present

Machine Learning Engineer, San Francisco Bay Area

Main maintainer of AI tooling for the company monorepo

Established the internal [agent skills](#) system and the feedback loop

Created CLIs for AI tool to access almost all internal information

Designs, implements and A/B tests changes for Quora feed and digest [recommendations](#)

Built tools like funnel analysis to investigate any issues with retrieval and ranking algorithms

Runs the product interview for content recommendation systems and AI engineering

Shipped the generation of questions about [recent events](#)

Wrote and evaluated prompts to label topics for content, and the pipeline to create new [topics](#)

Languages: Python, PyTorch, prompt engineering, Trino/PrestoSQL

Technical domains: recommendation systems, large language models, AI engineering, A/B testing

Projects

NVIDIA Nemotron Model Reasoning Challenge

Won the Open Progress Prize ([publication](#), [demo](#))

ARC Prize

Ranked [4th](#) at milestone 1 of the ongoing ARC-AGI-3

Worked on ARC-AGI-2, crafted [solutions](#) ([writeup](#))

AI Mathematical Olympiad

Published [notebooks](#) and annotation [corpus](#) for AIMO 3, [commended](#) by the hosts

Previously participated in AIMO 1 ([code](#), [discussions](#)) and AIMO 2 ([code](#), [writeup](#))

Konwinski Prize

Published the [widely used](#) baseline [notebook](#). Ranked [7th](#) on the public leaderboard

Meta AI Hacker Cup

Competed in Meta's AI competitive programming challenge in [2024](#) ([3rd place](#)) and [2025](#)

LeetCode - peak rating [2992](#) (March 2022)

Codeforces - peak rating [2235](#) (July 2022)

Writing

Product - instruction [delivery](#), principles for [AI products](#), prompting [projects](#)

Predictions - [2026](#), [interaction](#) models and [multichannel](#) prediction, [supercommunity](#)

Drawings - animated [flash](#) attention, [decoder](#) layer, [X algorithm](#)

AI Coding - [mindset](#) changes, what AI [needs](#), how to [improve](#)

Education

Singapore University of Technology and Design

May 2017 - Aug 2021

Bachelor of Engineering (Honours with Highest Distinction), GPA 4.61/5.00

Currently on H-1B. Also eligible for H-1B1 Singapore visa (no [lottery](#), no [100k fee](#))
